Who is the **SHOUG**? www.SHOUG.info

- SHOUG means Shanghai Oracle Users Group, 上海Oracle用户组in Chinese
- Shanghai is International metropolis ,based in Shanghai,SHOUG like to organise Oracle events to promote the Oracle academic atmosphere in great-china
- Todd Bao and Maclean Liu is co-founder of SHOUG
- SHOUG is an independent Oracle users Group, SHOUG is fully independent Org

SHOUG Purpose }

- SHOUG is non-profit organization , like most OUG
- The goal of SHOUG is to assist and support Oracle Users in Great China, to make them use software/hardware provided by Oracle Corporation better, not only traditional RDBMS /DB . SHOUG is consist of volunteers , technical experts, oracle specialists , as well as third-party experts.
- Oracle Technical atmosphere in east-China is not strong as expectancy, but we find lots of technical enthusiasts , especially in recent years, Oracle DB, middleware and even hardware technology in eastern regions has a lot of fans. Lack of an efficient nonprofit organization prevent the technical spread smoothly . SHOUG appear precisely in order to fill this gap.

SHOUG Composition

- Over 30 core members
- Most of them live in east-china
- Coverd technical including:ORACLE RDBMS、 Exadata、 ORACLE ADF developerment、 BIG Data、 Exalytics、 OBIEE、 Essbase、 Timesten、 Oracle Nosql
- SHOUG is still baby

SHOUG Member Benefits

- Technical Document sharing based on Google Drive:SHOUG.DRIVE@GMAIL.COM
- New technical press: 12c & Exadata
- Publish recent critical bug/fault in circle
